OBJECTIVE

Third-year B.Tech IT student with a Minor in AI. Proficient in Python, full-stack development (MERN/PERN). Experienced in building real-time deep learning systems and scalable web platforms, with a strong foundation in DSA, data science.

EDUCATION

G H Raisoni College of Engineering and Management, Pune
B.Tech – Information Technology (pursuing) | Minor in AI (pursuing)

CGPA: 8.81 / 10
2023 – 2027

TECHNICAL SKILLS

Languages: C, C++ (DSA), Python
Web Technologies: MERN Stack, PERN Stack, HTML, CSS, JavaScript, React.js, Node.js
Databases: MySQL, PostgreSQL
Fundamentals: OOPS, DBMS, Computer Networks, DSA, OS
Tools: Git, Visual Studio, Jupyter Notebook
Data Science: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, SciPy
Deep Learning: YOLO, OpenCV
Soft Skills: Leadership, Teamwork, Adaptability

EXPERIENCE

Ediglobe | Full-Stack Web Development Intern

1 Nov 2024 – 30 Dec 2024

- Completed a learning-focused internship in full-stack web development using MongoDB, Express.js, React, and Node.js.
- Built hands-on projects including a To-Do List app, Expense Tracker, and Password Generator, applying CRUD operations, RESTful APIs, and responsive UI design.
- Gained experience in frontend development (React), backend API creation (Node/Express), and database management.
- Strengthened skills in JavaScript, Git/GitHub.

PROJECTS

Faceliveness Detection | Python - OpenCV - YOLO

- Developed a deep learning-based system to ensure secure digital identity verification by distinguishing real users from spoofing attempts (e.g., photos, videos, masks).
- Implemented multi-factor techniques including 2D/3D face recognition, eye movement tracking, and lip-sound correlation for robust liveness detection.
- Achieved enhanced accuracy and real-time performance, making the system suitable for high-security use cases such as online exams, eKYC, and attendance.

Ease Exam – Online Examination System | MERN Stack - Role-Based Access

- Developed a scalable web-based online examination system with role-based access (Admin & Student) for managing courses, users, and exams.
- Implemented real-time exam submission, automated result generation, and performance analytics dashboard for efficient evaluation.
- Designed a responsive and optimized user interface.

CERTIFICATION & ACHIEVEMENT

- Solved 300+ problems in leetcode and 200+ problems in Codeforces [link](#)
- Certification of various hackathons: Smart India Hackathon (SIH), Nexathon, and impectus Hackathon.
- Top 10 in a Nexathon 24-hour hackathon.
- Python Hackerrank Certificate. [link](#)
- Deloitte Australia – Data Analytics Job Simulation. [link](#)
- NPTEL Certification in Effective Communication, enhancing professional communication.
